Adamson Systems Engineering
Blueprint AV™ Installation Guide

Adamson Systems Engineering
Using the Service Section

With the launch of Adamson Systems' new website, we have revamped the service section, which is the portal through which the end user can file warranty claims. This document will detail the process taken to file a claim.

Installing Blueprint AV™
## Downloading the Software

1. Navigate to the Adamson Systems website at http://www.adamsonsystems.com/

2. Go to the Blueprint AV™ Login page, accessible through the 'Account Access' button at the bottom right-hand side of any page on the Adamson website. Alternately, the login can be accessed through the 'Blueprint AV™' login in the 'Support' drop down menu.
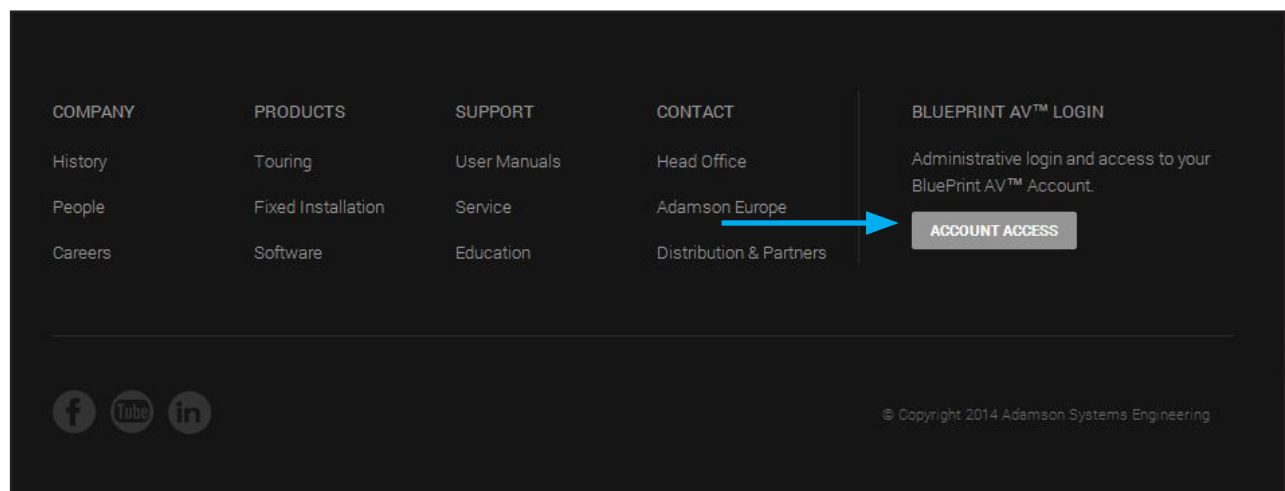

Installing Blueprint AV™
Downloading the Software

3. Enter Email Address and Password, as provided to you by your Adamson Technical Representative.

Installing Blueprint AV™
Downloading the Software

4. From the 'Customer Account' page, you will see the account holder's details (which can be altered), download links for the latest version of the software for both Windows and Mac, as well as pertinent license information. All of the users licensed on the main account will be listed on this page.

License holder details can be changed

Serial number required to activate software

Installing Blueprint AV™
## PC Installation

1. Launch the downloaded installer file. If you have a previous version of Blueprint AV™ installed on your computer, you will be prompted to uninstall. Do so.
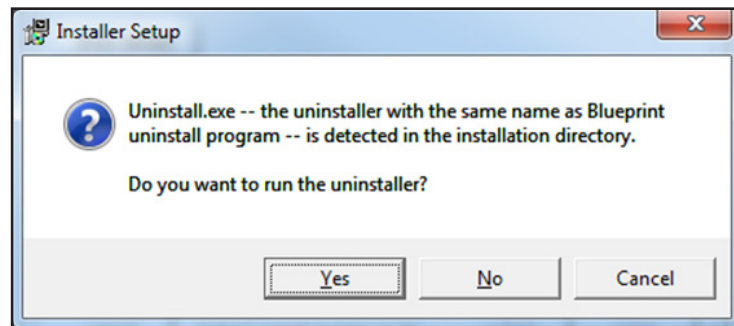

2. Upon launching the program for the first time, you will be asked to enter a serial number and identifying data. Enter the serial number listed on the Blueprint AV™ Customer Account page and your identifying data. Make sure you have an active internet connection before clicking the 'Activate Now' button. When other users require a license, make sure you have active licenses available, and give them the same serial number to activate their copy of Blueprint AV™.

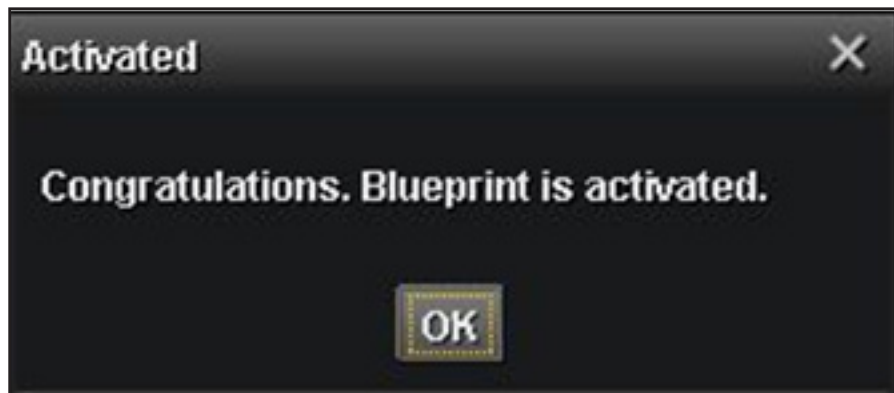

Note: After clicking 'Activate Now' please be patient while the license is activated.
