Pol. A Trabe 19-20 15350
Cedeira - Galicia (Spain)

Product of Europe

Our products are the result of the extensive collaboration of European engineering teams, running parallel R&D programs in a network, centralized at the new IDEA manufacturing facilities in Cedeira. A fresh contemporary approach, based only on European components and labour, meeting all CE Quality control and procedures and standards.

Maximum Value

All our systems are focused on application convenience, absolute value and sonic excellence, while remaining within a product combination architecture that always ensures maximum performance. We have developed an original way to envision loudspeaker design, based on the manufacturing process and the final application.

Modular complete systems

IDEA products are, essentially, complete modular Loudspeaker + DSP + Amplification systems for professional sound reinforcement that are all scalable and compatible to allow the user to find the right configuration to meet the SPL, coverage, operational costs and logistic requirements for each application.

Fair deal

The goal of IDEA is to provide a dedicated network of users and distribution partners worldwide with hard-working professional audio tools that are equivalent in acoustic performance and construction quality to the most successful and respected brands in pro-audio industry, keeping controlled prices in order to maximize the value of IDEA systems.
